PAIRING YOUR AERATRON TO THE TUYA APP

To make your Aeratron fan Smart capable, the PLFR-WIFI Module SMART Accessory must have been purchased and installed.

1

Turn off power to fan at isolation/wall switch and wait for at least 30 seconds.

2

Open the Tuya App, sign in and select Add Device - Small Home Appliances - Ceiling Fan (Wi-Fi)

3

Select network (must be 2.4GHz) and enter password, then Next.

4

Select **Confirm the indicator is blinking ra...**

Reset the device

Press and hold the RESET button for 5 seconds until the indicator blinks (subject to the user manual).

Confirm the indicator is blinking ra...

5

Turn the isolation switch back on – fan will make a single beep.

6

Set the fan to speed 1 on the remote.

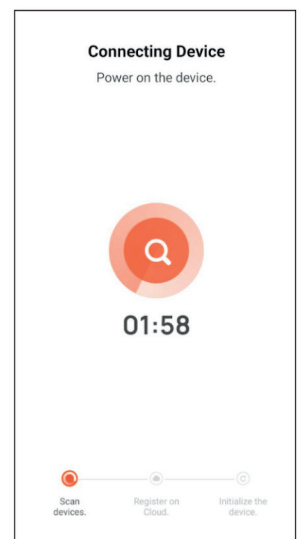

7

Press and hold down the button on your remote control indicated for your fan model shown below until the fan beeps then after 3 seconds you should hear another beep to indicate successful programming.

8

You should see – Connecting Device.

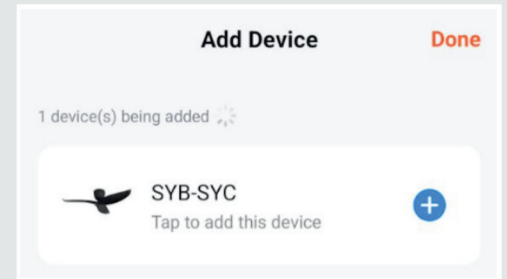

STEP BY STEP GUIDE

PAIRING YOUR AERATRON TO THE TUYA APP

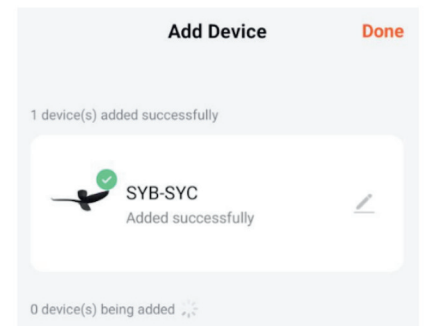

9

You will see the Aeratron being added:

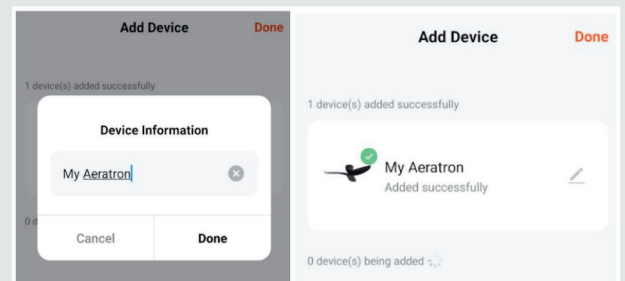

10

Your Aeratron should now show 'Added successfully' - select DONE

11

You can change the name using the Edit (pencil).

12

When you open the device you should see a operational screen similar to the one below.
(note: updates to the app may result in changes)
